COLOR CODING

Look at the bullseye! Write the NUMBER for each colour ring — 1=outermost, 5=innermost.

Name: _____ Age: _____ Date: _____

COLOUR KEY:

Ring positions:

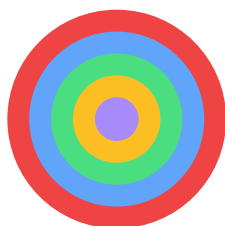

1 = Outermost ring

2 = Second ring

3 = Middle ring

4 = Fourth ring

5 = Innermost ring

EXAMPLE ✓

1

Red

2

Blue

3

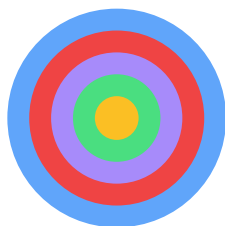

Green

4

Yellow

5

Purple

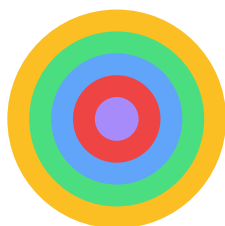

Puzzle 1

--	--	--	--	--

Puzzle 2

--	--	--	--	--

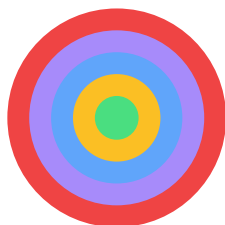

Puzzle 3

--	--	--	--	--

Puzzle 4

--	--	--	--	--

Puzzle 5

--	--	--	--	--

Name: _____ Age: _____ Date: _____

■ ANSWER KEY — Check your work!

Puzzle 1:

1 = ring 2
Red

2 = ring 1
Blue

3 = ring 5
Green

4 = ring 3
Yellow

5 = ring 4
Purple

Puzzle 2:

1 = ring 3
Red

2 = ring 4
Blue

3 = ring 1
Green

4 = ring 5
Yellow

5 = ring 2
Purple

Puzzle 3:

1 = ring 4
Red

2 = ring 3
Blue

3 = ring 2
Green

4 = ring 1
Yellow

5 = ring 5
Purple

Puzzle 4:

1 = ring 5
Red

2 = ring 2
Blue

3 = ring 4
Green

4 = ring 1
Yellow

5 = ring 3
Purple

Puzzle 5:

1 = ring 1
Red

2 = ring 5
Blue

3 = ring 2
Green

4 = ring 4
Yellow

5 = ring 3
Purple

■ CHALLENGE: Design Your Own Bullseye!

Choose your own colour order and write the numbers in the boxes!

Colour me! —■

1	2	3	4	5

Colour me! —■

1	2	3	4	5

Colour me! —■

1	2	3	4	5

■ Think About It!

If the outermost ring is GREEN and innermost is RED,
what number is RED? ____ What number is GREEN? ____

(Answer: RED = 5, GREEN = 1)

■ This is how computers store colours!

Computers give every colour a NUMBER — just like you did!

Red = 1 Blue = 2 Green = 3 Yellow = 4 Purple = 5
